Description

Indispensable when using Sashed Quilt-As-You-Go (QAYGO) techniques.

As promised, we are switching from 3/4" rolls to 1/2" rolls. The white 1/2" has arrived - we are waiting for the black 1/2" and still have the black 3/4" in stock.

Heat and Press Batting Together bonds two pieces of batting together to prevent joined quilt blocks and pieces of batting in your sashing from slipping during construction or use of the quilt.

Each 1/2" roll has 10 yards of fusible bonded tape. Orders for 1/2" and 3/4" tape will include 2 rolls.

We use Heat Press Batting Together for our sashed Quilt-As-You-Go projects.

Place the batting for your sashing right next to the batting in your quilt block, lay the tape over the join, press lightly with your iron and it's done.

Heat Press Batting Together is a very soft mesh that quilts easily and prevents joined batting pieces from slipping. Works even if you do not add decorative quilt stitching to your sashing.
